Unscramble the phrase

Marine litter is a huge problem and a large number of instruments have been adopted at international, regional and national level to solve it.

Unscramble the phrases to find out which are the most important tools and the measures.

1. Eniram Ygetarts Krowemarf Evitcerid si eht tseb nwonk evitcerid taht smia ot tcetorp eht eniram tnemnorivne.
2. Etsaw Krowemarf Evitcerid si desab no eerht niam fo noitca: etsaw noitneverp, gnilcyser dna yrevocer dna lanif alsopsid fo etsaw.
3. Yb 0302, lla citsalp gnigakcap sdeen ot eb elbalcyser.

Correct answers:

1. Marine Strategy Framework Directive is the best known directive that aims to protect the marine environment.
2. Waste Framework Directive is based on three main lines of action: waste prevention, recycling and recovery and final disposal of waste.
3. By 2030, all plastic packaging needs to be recyclable.

Imagination exercise

Today you will be a member of the European Commission and the agenda includes the development of proposals for measures that will be part of the Marine Strategy Framework, Descriptor 10. Which are the 3 most important measures proposed by you to reduce the amount of marine litter on European beaches?

Selective collection

The selective collection target for plastic bottles (PET) is 90% by 2029. You start today and every PET that enters your home will reach the container dedicated to plastic (yellow). How many plastic bottles did you selectively collect in a week?

Common borders. Common solutions.
